Categorisation of Original Documents in IAD and Appropriate Retention Periods

1. Only original (and not copy or certified copy) documents can be Original Documents ("ODs").
2. All deeds and associated property documents for the same property should be amalgamated together and retained for either 2 years (registered titles) or 21 years (unregistered title) from the date of intervention. Although this may appear to be a short timeframe it is worth noting that letters will always be sent to the current occupiers of unregistered properties or land notifying them of the position and asking them for their urgent instructions. Retention timescales will also be highlighted in the letter. A retention period of 80 years will apply to unregistered titles where a contact address is not available. In relation to registered titles, most property documents will have already been incorporated into the title and therefore be redundant.
3. Commercial leases / tenancy agreements and associated documents should be retained for their duration plus 3 years.
4. All non property related ODs will be retained separately for 80 years.
5. Any ODs which are documents of historical interest should be labelled as such on the electronic record in a searchable / reportable format.
6. Documents clearly marked as having been deposited with solicitors for safe-keeping shall be treated in the same way as ODs and will be retained for 80 years.

*Only long leases (typically 60 years or more) reserving a nominal ground rent should be included in Property Deeds / Documents. Shorter commercial leases should be categorised as Lease Documents (see below).

Notes:

- If more than one of the above items are identified for the same property then they should be bundled together.
- If a deeds packet is uplifted then only limited sifting is necessary to assess whether the packet contains ODs which fall into one of the other OD categories (in which case they should be removed and retained separately).
- Only the following Property Deeds / Documents relating to registered properties need to be removed from a file and retained separately:
 - Declaration / Severance of Trust
 - Indemnity Policy

This is because the file itself will be retained for at least 7 years from completion and won't be destroyed until at least 2 years after the intervention.
